

HORSE VS. ROOSEVELT; FORMER GETS CROWD

But the Governor's Friends at Oyster Bay Shout for
Him for President, and He Talks on
Honesty and Expansion

SPEAKERS FAVOR COLONEL ROOSEVELT FOR
PRESIDENT

I AM not enough of a prophet to add anything to the statement just made that Governor Roosevelt is destined for further honors, but I am enough of an American to say a loud amen! There is glory for the man in whose hands we hope some day the destinies of the nation will be placed.

Out of the conflict just passed shall come a Governor who shall rule the whole people.—Extracts from speeches made at Oyster Bay yesterday, where

WHILE Governor Roosevelt was making a speech at one end of Oyster Bay yesterday, there was a horse

rot at the other end. This horse trot, being a strong counter attraction, captured nearly all the voters.

Only about 150 full grown men and about 800 women, boys and babies, listened to the Governor and applauded him portentously.

The men expected to hear the Governor mentioned as a formidable candidate for the Presidency, the women and boys wanted to hear patriotic speeches. All of them got

The celebration was held in Andrey Park, a triangular bit of stubby grass, a stone's throw from the railroad station. A tiny platform, draped with afags, sat in the centre of the triangle. About this platform were the men, women and babies. The boys hung from the branches of the neighboring trees and encouraged the Governor by frequent shouts of "Teddy's all right." A score of firm wagons, carriages and automobiles were parked in the village band did the best it could.

It was the scheme of the men who arranged the programme to have all religious and political beliefs take part in it. The

Thomas Frazer was once a prosperous druggist in this city. He owned an interest in four stores. To-day he has not a penny left.

Seven years ago he was attacked by bilious colic and his physician prescribed morphine. Frazer grew to like the drug and began to use it every day. Then, finding morphine not strong enough, he began the use of cocaine, and lately he has used picropleine.

Frazer gradually lost all his property, and his wife and little one were obliged to

Major of every church in the village was present and said something.

Among those who looked after details was Maurice E. Townsend, chairman of the Union Democratic Committee.

Shortly after 4 o'clock the Governor arrived and was greeted by scattering bits of applause. Shortly after he had mounted the platform his two oldest boys, bareheaded and in white suits, came down the aisle and stood on either side of him.

him. The Governor frowned at them, and thereafter they were quiet.

Those who hoped to hear something politically interesting had not long to wait. The Governor's Presidential aspirations were touched upon at the outset by the Rev. Henry E. Washburn, of the Episcopal Church, and thereafter these aspirations were the theme of all the discourses.

These speeches made clear that Oyster Bay is proud of Governor Roosevelt, and that if the people of the village had their choice they would elect him Governor. Mr. Washburn said of the Governor: "He is destined yet to be further honored. He will soon be elected Governor, and he shall come a Governor who shall rule the whole *48-state*." Some time ago Detective Belger, who is a member of the Varuna Boat Club, secured for Hassett a position as an attendant at the boat house on Sheephead Bay.

Belger, who is a very good fellow, prepared to take a spin over the bay and gave into the hands of the police a watch and chain, a diamond stud and a ring.

"This made the women laugh. Then the Rev. Father John L. Belford, in the course of a clever speech, said this: "I am not a seer, but I am a prophet to add anything to the statement just made, but I am enough of an American to say a loud, amen!"

Mr. Belford, with a possible reference to the fear that the Governor's expeditions are supposed to have raised in the breast of President McKinley, added: "The trouble is that Roosevelt's name has caused comes to us from the whole West, a rumble that has made their ears tingle. earnestness. A good deal of what he said was on the same lines as his Decoration Day oration. He made a good speech and winning applause from the men—sometimes and sometimes he made the women laugh. He spoke of the necessity of honesty and fair dealing on the part of public servants in this way:

The fight against civic corruption, the fight for civic honesty, may be never ended, if we are to put this country permanently on the level where she belongs. We can well afford the widest difference of opinion on matters more political, but we cannot afford to tolerate in our public men (and still less in ourselves) practices inconsistent with the basic rules of public morality, if we wish to see the republic endure.

Honesty is not all that is necessary in public service in a public man. No matter how able and honest, how hard working, how energetic, ability and intellect render him only the more dangerous to the people if he is dishonest.

I hope to see the day when it shall be considered needless to ask, of a public man, what he is honest, because it will not enter into the possibilities of a public man to be dishonest in public, a man who is not. To honesty more, but not added courage. The timid man, who is afraid to stand up for honesty,
